VALUE | INTEGRITY | SERVICE | EXCELLENCE

Solutions & Services

MTS delivers exceptional Local-to-National Services, Design & Engineering, Deployment & Test/Validation, & On-Time Product Delivery.

COMMUNICATIONS INFRASTRUCTURE

- Fiber & Copper
- Outside Plant
- Inside Plant
- Aerial
- Underground
- MPLS, VOIP, SDWAN

SPECIAL SYSTEMS

- Mass Notification
- Paging Systems
- Sound Masking
- CATV
- Contact/Call Center

WIRELESS INFRASTRUCTURE

- Guest WIFI Systems
- Antennas
- IOT Infrastructure

PHYSICAL SECURITY

- CCTV
- Perimeter
- Access Control
- Intrusion Detection

AUDIO VISUAL

- Video Teleconference
- Digital Signage
- Video Walls

PROFESSIONAL SERVICES

- Project Management & Consulting
- Engineering & Design
- Maintenance & Support
- Fiber Inspection & Asset Inventory
- Facility Support
- Document Destruction
- Other Business Support & Staffing

PRODUCTS & MATERIALS

- Communications/Data
- Electrical
- IoT

MAYHEW TECHNOLOGY SOLUTIONS

MTS holds over 30 years of professional experience in military and government contracting. The organization is headed by Molly Mayhew, a female veteran, with extensive history in building a successful 8(a) organization, working in diverse verticals and consulting small businesses in reimagining their vision.

Garland Texas VAMC Surveillance Upgrade

Contract Number: 36C25720P1368

Contract Amount: \$1.5M

Period of Performance: 9/2020 - 8/2021

MTS completed the installation of a surveillance and security system at the Garland VAMC, Garland Texas. The project included cabling and equipment installation for 190 cameras, 80 doors, upgrade to the Lynx communications system, Code Blue system, egress, and facility access control and intrusion systems. The MTS team worked seamlessly with the Garland and Dallas VA staff to ensure coordination for integration to the VA OIT network, configuration of VA video management systems and software, and programming and activation for all physical equipment components and over 300 users. Infrastructure support included copper, composite, and fiber optic cabling installed in new raceways, conduit, and manholes to ensure system connectivity.

MTS did not experience any deductions or liquidated damages on this project. MTS also did not experience any terminations or defaults on this project. This project was completed ahead of schedule and within budget.

Temple Texas VAMC Guest WIFI Installation

Contract Number: 36C25718P2430

Contract Amount: \$245,029

Period of Performance: 9/2018 - 6/2019

MTS designed, configured, and deployed a Guest WIFI system solution for Temple Texas VAMC. It included installation of an air-gapped copper and fiber backbone, system firewall, 175 Ruckus wireless access points, 50+ switches, controllers, and associated ancillary equipment to support wireless services concurrently for over 2,000 VA patients and guests visiting the facility daily. The guest WIFI was installed in multiple facilities and units at Temple VAMC, to include the two main hospital buildings, the CLC, and the Mental Health facility.

MTS successful performance on the initial contract resulted in a contract modification for the expansion of the Guest WIFI at Temple VAMC, and a separate contract to provide similar services at Waco VAMC.

MTS did not experience any deductions or liquidated damages on this project. MTS did not experience any terminations or defaults on this project. This project was completed on schedule and within budget.

Waco Texas VAMC Guest WIFI Installation

Contract Number: 36C25719P0845

Contract Amount: \$111,297

Period of Performance: 5/2019 - 9/2019

MTS designed, configured, and deployed a Guest WIFI system solution for Waco VAMC, Texas. It included installation of an air-gapped copper and fiber backbone, system firewall, 65 Ruckus wireless access points, 10+ switches, controllers, and associated ancillary equipment to support wireless services concurrently for over 1,000 VA patients and guests visiting the facility daily. The guest WIFI was installed in multiple facilities Waco VAMC, to include the several clinics, three CLCs, and the Center of Excellence located at Waco, Texas.

MTS did not experience any deductions or liquidated damages on this project. MTS did not experience any terminations or defaults on this project. This project was completed on schedule and within budget.

ADDITIONAL PAST PERFORMANCES

USACE PACS

Contract Number: W912S719P0079 **Contract Amount:** \$522,892 (base) / \$14,225 (OY1)
Period of Performance: 5/2019 – 4/2020 **OY1:** 5/2020 – 4/2021 **OY2:** 5/2021 - 4/2022

MTS provided PACS services to USACE Little Rock for the Arkansas and Table Rock, Missouri NERC powerhouses and dams with a CCURE software and firmware system update that will support upcoming additional phases to install cameras at the dams and powerhouses, and intrusion detection systems. MTS is currently exercising Option 1 for annual maintenance and support services.

Tinker AFB, OK - A/V Upgrade

Contract Number: FA810118P0091 **Contract Amount:** \$42,244 **Period of Performance:** 8/2018 – 10/2018

MTS provided an upgrade for 72ABW/Tinker AFB, OK, Civil Engineering division’s incident command post, including installing new cabling and hardware, a large display, and new conferencing capability.

Waco Laundry & CLC PACS

Contract Number: 36C25720P0589/P0001/674C00148 **Contract Amount:** \$226,170
Period of Performance: 3/2020 – 4/2021

MTS has completed a PACS requirement in support of VISN 17, Waco Laundry and CLC facilities and integrating the locations and additional 80+ cameras and an NVR, onto the existing Software House/ American Dynamics (Victor/ Video-Edge/CCURE) system.

Temple VICON Camera System

Contract Number: 36C25720P0687 **Contract Amount:** \$56,760 **Period of Performance:** 4/2020 – 5/2020
Contract Number: 36C25720P0622 **Contract Amount:** \$18,418 **Period of Performance:** 3/2020 – 4/2020

MTS has provided a VICON stand-alone camera system and associated components at Temple VAMC, Texas to support urgent COVID-19 requirements allowing a “view-only” stand-alone system to support the nursing and physician staff.

VISN 17 Central Texas - CCURE and Video Edge end user training

Contract Number: 36C25720P1201 **Contract Amount:** \$59,605 **Period of Performance:** 7/2020 – 10/2020

MTS provided VISN 17 Central Texas with CCURE and Video Edge end user training in September and October 2020 to allow the VA to directly support and the security system, eliminating 3rd party vendor maintenance support; realizing significant cost savings.
